SUMMARY

Software Developer with hands-on experience in **Python, software testing, API development, automation, and CI/CD workflows**. **Strong foundation in Object-Oriented Programming, Data Structures & Algorithms, Git, and software engineering practices**. Experienced in functional, **API, regression, and UI testing, debugging software issues, validating API workflows**, and developing reliable software solutions.

TECHNICAL SKILLS

- **Programming Languages:** Python,C++, Java, SQL, HTML,CSS,JavaScript
- **Core Concepts:** Data Structures & Algorithms, Object-Oriented Programming (OOP), Problem Solving
- **Software Testing:** Functional Testing, API Testing, Regression Testing, UI Testing, Debugging
- **Automation & Development:** REST APIs, Backend Development, Software Automation, CI/CD
- **Version Control & Agile:** Git, GitHub, GitLab, Jira
- **Databases:** PostgreSQL, MongoDB, MySQL
- **Tools & Platforms:** Docker, Postman, VS Code

PROFESSIONAL EXPERIENCE

Software Development Intern | Humalife Healthcare Feb 2026 – Mar 2026

- Developed a **REST API integration withZoomInfo** to automate professional contact data retrieval from LinkedIn profile URLs.
- Implemented a **two-step API workflow for person matching and retrieval of masked email** and phone information.
- Added **request timeouts, HTTP status validation, exception handling, and fallback logic** for reliable API processing.
- Processed and transformed **API responses into structured CSV-ready contact data, reducing manual data-processing** effort.

Software Development Intern | Herbs Magic May 2026-Present

- Developed and tested software features using **Node.js, PostgreSQL, REST APIs, Prisma, Redis, and React** across CRM, ERP, and automation platforms.
- Built **AI/RAG chatbot functionality, public APIs, backend integrations, and automated workflows**.
- Implemented **workflow triggers/actions, campaign automation, auto-retry functionality, analytics, and messaging features**.
- Performed **functional, API, regression, and UI testing, debugging and resolving issues across authentication, campaigns, analytics, validation, and responsive interfaces**.
- Used **Git/GitLab-based development workflows and Jira** for version control, issue tracking, and software development activities.
- Worked with **CI/CD workflows to support automated software build, testing, and reliable delivery processes**.

ACHIEVEMENTS

National-Level Finalist — Talrop Technovate for India 2024 (Times of India): Developed AgroTech Nexus, an **IoT-based farming solution** integrating crop monitoring, AI crop analysis, and a FarmDirect marketplace.

EDUCATION

Bachelor of Engineering (B.E.) in Information Technology - 2027

CGPA:8.4/10

SPPU, Pune
